KAVIN VENCESLAUIS

STUDENT

SUMMARY

I am an IT graduate with a strong passion for data engineering, AI, and machine learning. With a solid foundation in Python, statistical analysis, and data visualization. I am driven to build robust data pipelines and scalable solutions that support intelligent systems. Eager to start my professional journey, I aim to contribute to data-driven innovation by enabling efficient data workflows and supporting AI/ML initiatives across industries..

SKILLS

- Python
- Java
- MySQL
- C
- C++
- Javascript

TOOLS

- mongo DB
- Power BI
- Tableu
- MS Excel
- Apache cassandra

HOBBIES

- Cycling
- Travelling

PROJECTS

Energy consumption and Trend analysis using power BI

This project involves analyzing energy consumption data using Power BI to identify trends and patterns in energy usage over time. It helps track consumption trends, identify peak usage periods, and forecast future energy needs.

Analysis of Zomato's Business Model and Marketing

This analysis evaluates a company's business model and marketing strategies, focusing on value propositions, revenue streams, and customer segmentation. It identifies strengths and areas for improvement, ensuring alignment between marketing efforts and business goals.

INTERNSHIPS

Mathworks Virtual Internship Programme **4mo**

Getting started with AI & ML

Edunet Virtual Internship **1mo**

AI with Green Technology

Bala Aatral Solutions **10d**

XR Development

EXPERIENCE

Finlatics Business Analyst Experience Program - BAEP

Gained hands-on experience in data analysis. Developed skills in market research, requirements gathering, and using analytical tools to drive business decisions.

EDUCATION

St. Vincent's Matriculation Higher Secondary School **2008 - 2022**

SSLC: 75.4 %

HSC: 79.0%

Loyola-ICAM College of Engineering and Technology **2022 - 2026**

COURSE: B.TECH - IT

CGPA: 7.75 (as of now)
